From Principal's Desk

In the month of March, the college saw many productive academic and co-curricular activities. In the field of sports, the college students participated and shined at national level shooting ball competitions and a girl student even played her part in making the Andhra team victorious. The NSS unit of the college also created awareness among the surrounding educational institutions about the importance of vaccine and other things. The departmental activities mainly comprised of field trips to eminent institutes of higher learning where students were enabled to gain practical knowledge. In addition to these, the college has organised other events such as

Dr. C. Yoganjaneyulu induction programme for freshers, international women's day celebrations and awareness programmes on cyber-crimes and anti-ragging activities. The political leadership and officials of PADA have helped the college in many ways such as installation of RO water plant, release of funds for infrastructural facilities and so on. The month ended on an optimistic note with all the heads of surrounding junior colleges extending their support to the admission campaign for the upcoming academic year.
